Music For Puzzle Games (FREE)

Hi,

We would love to personally thank you for having downloaded our sample pack. If you are interested in the contents of this Asset Package, we encourage you to read on. If you have the time to leave a review on the Unity Asset Store, it would be extremely helpful to us. Having said that, let's dive right into it!

Aural Space Team

Package Description

Music For Puzzle Games (Free) is an Asset Package created by Aural Space, which showcases the 10 songs featured in the Full Version of the Music For Puzzle Games Asset Package by Aural Space (Link Below). These 10 creative and unique soundtracks will help bring your game to the next level and give it that edge that your project deserves. Feel absolutely free to use these tracks in any way you please, however, if you are not quite sure what you could do with them, below you'll find our personal quick tip to get the best out of this Asset Package.

Quick Content Guide

Each track is named after what we imagined would be the best fitted puzzle game theme, and although that's a good starting point, the songs can be used for pretty much any genre. Simply drag and drop the desired track into your project and implement it into your game.

To have the full freedom to tweak and control these 10 tracks to better fit your game, we highly recommend you download the Full Asset Package, found right here:
